Subject: Colorado Springs League & Facility Closure

To:

Within all that is currently going on right now, we've been informed that our fields/facilities and any activities/leagues/programs in them are effectively cancelled through May 10. Tentatively we'll start operations back up on May 11. This is not a finalized statement by any means as things are ever changing. However, that means if your event falls on any date between now and May 11, it is cancelled. I apologize for the inconvenience and I'll do my best to communicate things as we know them.

If you have paid for your event already, please contact me individually to discuss what happens next.

In the meantime, stay safe, stay positive, and support your neighbors.

Thank you,

Joe Braun
